Indexes to Volume 25

Authors and Titles

Abbott, Ian—
The role of competition in determining morphological differences between Victorian and Tasmanian passerine birds 429
Amos, T. G., and Williams, P.—
Insect growth regulators: some effects of methoprene and hydroprene on productivity of several stored grain insects 201

Baldwin, J., Friedman, G., and Lilywhite, H.—
Adaptation to temporary muscle anoxia in anurans: activities of glycolytic enzymes in muscles from species differing in their ability to produce lactate during exercise 15
Baldwin, J., and Seymour, R. S.—
Adaptation to anoxia in snakes: levels of glycolytic enzymes in skeletal muscle 9
Ball, Ian R.—
A monograph of the genus *Spathula* (Platyhelminthes : Turbellaria : Tricladida). Supplement No. 47 (22 April). Abstract 613
Baudinette, R. V.—
Locomotory energetics in a marsupial, *Setonix brachyurus* 423
Begg, Robert J., and Nelson, John E.—
The agonistic behaviour of *Rattus villosissimus* 291
Beveridge, I.—
A taxonomic revision of the Anoplocephalidae (Cestoda : Cyclophyllidae) of Australian marsupials. Supplement No. 44 (10 December 1976). Abstract 185
Bock, Ian R.—
Drosophilidae of Australia. II. *Scaptomyza* (Insecta : Diptera) 337
See Cook, R. M. 755
See Parsons, P. A. 249
Breed, W. G.—
Histological changes in the ovary of the hopping-mouse *Notomys alexis* during lactation 401
Brown, K. R., and Shipp, E.—
Wing morphometrics of Australian Luciliini (Diptera : Calliphoridae) 765

Bull, C. Michael—
Back pattern polymorphism and tadpole growth rate in two Western Australian frogs 243
See Wiltshire, D. J. 449

Close, R. L.—
Recurrence of breeding after cessation of suckling in the marsupial *Perameles nasuta* 641
Cook, R. M., Parsons, P. A., and Bock, I. R.—
Australian endemic *Drosophila*. II. A new *Hibiscus*-breeding species with its description 755
Cooper, J. B.—
See Howden, H. F. 827
Curtain, C.
See McCluskey, J. 71

Dear, J. P.—
A revision of Australian Rhiniinae (Diptera : Calliphoridae) 779

Farrow, R. A.—
Origin and decline of the 1973 plague locust outbreak in central western New South Wales 455
Freedman, L.
See Taylor, J. 721
Frenkel, Maurice J.
See Marshall, Robert C. 121
Friedman, G.
See Baldwin, J. 15

Gauld, I. D.—
A revision of the Ophioninae (Hymenoptera : Ichneumonidae) of Australia. Supplement No. 49 (15 July). Abstract 613
Gillespie, J. M.
See Marshall, Robert C. 121
Grant, C. J., Spain, A. V., and Jones, P. N.—
Studies of sexual dimorphism and other variation in nine species of Australian mullets (Pisces : Mugilidae) 615
Grigg, Gordon C., and Underwood, A. J.—
An analysis of the orientation of 'magnetic' termite mounds 87

Hebert, Paul D. N.—
A revision of the taxonomy of the genus *Daphnia* (Crustacea : Daphnidae) in south-eastern Australia 371
Hinrichsen, Colin F. L., and Stevens, Graham E.—
Fine structure of cortical barrels in the mouse 1
Hollis, D. E., and Lyne, A. G.—
Endoderm formation in blastocysts of the marsupials *Isoodon macrourus* and *Perameles nasuta* 207
See Lyne, A. G. 225
Howden, H. F., and Cooper, J. B.—
The generic classification of the Bolboceratini of the Australian region, with descriptions of four new genera (Scarabaeidae : Geotrupinae). Supplement No. 50 (19 August). Abstract 827
Hume, I. D.—
Maintenance nitrogen requirements of the macropod marsupials *Thylogale thetis*, red-necked pademelon, and *Macropus eugenii*, tammar wallaby 407

Johnston, P. G., and Sharman, G. B.—
Studies on populations of *Potorous* Desmarest (Marsupialia). II. Electrophoretic and breeding studies 733
Jones, P. N.
See Grant, C. J. 615

Key, K. H. L.—
The genera and species of the tribe Morabini (Orthoptera : Eumastacidae : Morabinae) 499
King, Max—
Chromosomal and morphometric variation in the gekko *Diplodactylus vittatus* (Gray). 43
King, Max, and King, Dennis—
An additional chromosome race of *Phyllodactylus marmoratus* (Gray) (Reptilia : Gekkonidae) and its phylogenetic implications 667
Lilywhite, H.
See Baldwin, J. 15

Lyne, A. G., and Hollis, D. E.—
An unusual blastocyst stage of the marsupial *Isoodon macrourus* 225
See Hollis, D. E. 207

McCluskey, J., Olivier, T. J., and Curtain, C.—
Immunoglobulin allotypes in some Australian wild rabbit populations 71
See Taylor, J. 721
Maelzer, Derek A.—
The biology and main causes of changes in numbers of the rose aphid, *Macrosiphium rosae* (L.), on cultivated roses in South Australia 269
Mahoney, J. A.—
Skull characters and relationships of *Notomys mordax* Thomas (Rodentia : Muridae), a poorly known Queensland hopping-mouse 749
Main, A. R.
See Williams, C. K. 673
Malaka, S. L. Omo—
Temperature studies of the mounds and environment of *Amitermes evuncifer* Silvestri (Isoptera : Termitidae) 711
Mardon, D. K.—
A revision of the genus *Papuapsylla* Holland (Siphonaptera : Pygiopsyllidae). Supplement No. 45 (10 December 1976). Abstract 185
Marshall, Robert C., Frenkel, Maurice J., and Gillespie, J. M.—
High-sulphur proteins in mammalian keratins: a possible aid in classification 121
Martin, John T.—
Fat reserves of the wild rabbit, *Oryctolagus cuniculus* (L.) 631
Menzies, J. I.—
Fossil and subfossil fruit bats from the mountains of New Guinea 329
Metcalf, E. C.
See Watson, J. A. L. 25
Miles, Simon J.—
Laboratory evidence for mate recognition behaviour in a member of the *Culex pipiens* complex (Diptera : Culicidae) 419
Moth, Jeffrey J.—
Interspecific competition between *Drosophila melanogaster* and *D. simulans*: effects of adult density, species frequency and dietary ^{32}P on egg hatchability 699
Muller, M. J., and Murray, M. D.—
Blood-sucking flies feeding on sheep in eastern Australia 75
Murray, M. D.
See Muller, M. J. 75

Nelson, John E.
See Begg, Robert J. 291
Nicol, S. C.—
Thyroid function of the potoroo, *Potorous tridactylus* Kerr 419

Olivier, T. J.
See McCluskey, J. 71
See Taylor, J. 721

Parsons, P. A.
Resistance to cold temperature stress in populations of *Drosophila melanogaster* and *D. simulans* 693
See Cook, R. M. 755
See Prince, G. J. 285
Parsons, P. A., and Bock, I. R.—
Australian endemic *Drosophila*. I. Tasmania and Victoria, including descriptions of two new species 249
Persson, Bert—
Distribution of catch in relation to emergence of adults in some noctuid pest species in south coastal Queensland 95
Pont, A. C.—
The Australian and some other species of *Gymnodia* Robineau-Desvoidy (Diptera : Muscidae) 347
A revision of Australian Fanniidae (Diptera : Calyptrata). Supplement No. 51 (19 August). Abstract 827
Prince, G. J., and Parsons, P. A.—
Adaptive behaviour of *Drosophila* adults in relation to temperature and humidity 285

Roberts, Brian—
Influence of farnesyl methyl ether on the metamorphosis of *Blattella germanica* (L.) 233
Roth, Louis M.—
A taxonomic revision of the Panesthiinae of the world. I. The Panesthiinae of Australia (Dictyoptera : Blattaria : Blaberidae). Supplement No. 48 (8 July). Abstract 613

Selman, B. J.—
A review of the genera *Carystea* Baly and *Paralepta* Baly (Coleoptera : Chrysomelidae) 133
Sewell, J. J.
See Watson, J. A. L. 25
Seymour, R. S.
See Baldwin, J. 9
Sharman, G. B.
See Johnston, P. G. 733
Shine, Richard—
Reproduction in Australian elapid snakes. I. Testicular cycles and mating seasons 647
II. Females reproductive cycles 655
Shipp, E.
See Brown, K. R. 765
Snyder, Gregory K.
See Weathers, Wesley W. 19
Spain, A. V.
See Grant, C. J. 615
Stevens, Graham E.
See Hinrichsen, C. F. L. 1

Taylor, J., Freedman, L., Olivier, T. J., and McCluskey, J.—
Morphometric distances between Australian wild rabbit populations 721
Taylor, Robert W.—
New ants of the Australasian genus *Orectognathus*, with a key to the known species (Hymenoptera : Formicidae) 581

Vogt, W. G.—
A re-evaluation of introgression between *Dacus tryoni* and *Dacus neohumeralis* (Diptera : Tephritidae) 59

Underwood, A. J.
See Grigg, Gordon C. 87

Wass, Robin—
Branching patterns and phylogeny of the family Vittaticellidae (Bryozoa : Cheilostomata) 103
Watson, J. A. L., Metcalf, E. C., and Sewell, J. J.—
A re-examination of the development of castes in *Mastotermes darwiniensis* Froggatt (Isoptera) 25
Weathers, Wesley W.—
Temperature regulation in the dusky munia, *Lonchura fuscans* (Cassin) (Estrildidae) 183
Weathers, Wesley W., and Snyder, Gregory K.—
Relation of oxygen consumption to temperature and time of day in tropical anuran amphibians 19

White, M. J. D.—
Karyotypes and meiosis of the morabine grasshoppers. I. Introduction and genera *Moraba, Spectriforma* and *Filoraba* 567
Williams C. K., and Main, A. R.—
Ecology of Australian chats (*Epthianura* Gould): aridity, electrolytes and water economy 673
Williams, Joan Bowman—
Studies on the epidermis of *Temnocephala*. II. Epidermal sensory receptors of *Temnocephala novae-zealandiae* 187
Williams, P.
See Amos, T. G. 201
Wiltshire, D. J., and Bull, C. M.—
Potential competitive interactions between larvae of *Pseudophryne bibroni* and *P. semimarmorata* (Anura : Leptodactylidae) 449
Zwick, P.—
Australian *Hydraena* (Coleoptera : Hydraenidae) 147
Australian Blephariceridae (Diptera). Supplement No. 45 (25 February). Abstract 399

Subject Index

Activity, frog species, glycolytic enzymes in muscle 15
Alatae, development in *Mastotermes darwiniensis* 25
Amitermes
evuncifer, temperature gradients in mounds 711
laurensis, 'magnetic' mounds, orientation 87
Anoplocephalidae, revision of family. Supplement No. 44 (10 December 1976). Abstract 185
Anoxia
Anuran muscle, activity of species 15
Snake muscle, land *v.* sea habit 9
Ants
See Orectognathus 581
Anurans
Glycolytic enzymes in muscle, activity 15
Oxygen consumption, tropical species, temperature 19
Tadpole competition in hybrid zone, *Pseudophryne* spp. 449
Tadpole growth, polymorphism, *Ranidella* spp. 243
Aphids
See Macrosiphum rosae 269

Bandicoots
Breeding after young removed 641
Endoderm formation 207
Unusual blastocyst 225
Bats, subfossil, highland New Guinea 291
Behaviour
Adaptive, *Drosophila*, temperature and humidity 285
Agonistic, *Rattus villosissimus* 291
Birds
Temperature regulation, *Lonchura fuscans* 193
Victoria *v.* Tasmania, role of competition 429
Blastocyst
Endoderm formation in bandicoots 207
Unusual, in *Isoodon macrourus* 225
Blatella germanica, metamorphosis, effect of farnesyl methyl ether 233
Blattodea, revision of Australian Panesthiinae. Supplement No. 48 (8 July). Abstract 613
Blephariceridae, Australian, revision. Supplement No. 46 (25 February 1977). Abstract 399
Blood
Immunoglobulins in wild rabbits 71
Proteins, geographic variation in potoroo 733
Bolboceratini, Australian region, revised. Supplement No. 50 (19 August). Abstract 827
Brain, cortex, structure of 'barrels', mouse 1
Branching patterns, phylogeny of Vittaticellidae 103
Breeding
Recurrence after young removed, *Perameles* 641
Season, elapid snakes compared 647, 655
Bryozoa, branching patterns and phylogeny 103

Carystea, and *Paralepta*, review 133
Castes, development in *Mastotermes darwiniensis* 25
Cestoda, revision of Anoplocephalidae. Supplement No. 44 (10 December 1976). Abstract 185
Chats
See Epthianura 673
Chortoicetes terminifera, outbreak 1973, origin and decline 455
Chromosomes
Diplodactylus vittatus, five races demonstrated 43
Morabine grasshoppers 567
Phyllodactylus marmoratus, new race 667
Potorous tridactylus 733
Coleoptera
Bolboceratini, genera revised. Supplement No. 50 (19 August). Abstract 827
Carystea and *Paralepta*, review 133
Hydraena, revision 147
Competition
Drosophila spp., egg hatchability 699
Role in differences, Victorian *v.* Tasmanian birds 429
Tadpoles, in hybrid zone 449
Crustacea, revision of Australian *Daphnia* 371
Culex pipiens complex, mate recognition 491

Dacus, tryoni and *neohumeralis*, introgression 59
Daphnia, in south-eastern Australia, revision 371
Development
Castes in *Mastotermes darwiniensis* 25
Metamorphosis of *Blatella germanica*, effect of farnesyl methyl ether 233

Diplodactylus vittatus, races, chromosomal and morphometric analysis 43
Diptera
Blood-sucking, feeding on sheep 75
Faniidae, revision. Supplement No. 51 (19 August). Abstract 827
Luciliini, wing morphometrics 765
Rhiniinae, revision 779
Distribution
Allopatric, role of competition in hybrid zone, frogs 449
Endemic *Drosophila*, Victoria and Tasmania 249
Diurnal rhythm, oxygen consumption of tropical frogs 19
Drosophila
Adaptive behaviour, temperature and humidity 285
Distribution and habitat, Victoria and Tasmania 249
hibisci, described 755
Interspecific competition, egg hatchability 699
melanogaster and *simulans*, resistance to cold 693
Drosophilidae
Endemic, distribution and habitat 249
Scaptomyza redescribed 337

Egg
Clutch size, elapid snakes 655
Hatchability, *Drosophila*, species competition 699
Elapidae, breeding, oviparous *v.* live-bearing 647, 655
Electrolytes, balance, chats in arid habitat 673
Embryology
Bandicoots, endoderm formation 207
Unusual blastocyst 225
Emergence, adult, catch of noctuid pest species 95
Endoderm, formation in bandicoots 207
Energy, expenditure, locomotion in quokka 423
Enzymes
Glycolytic, anuran muscle, anaerobic energy production 15
Snake muscle, temporary anoxia, land *v.* marine habit 9
Epidermis, sensory receptors, *Temnocephala novae-zealandiae* 187
Epthianura, electrolyte and water balance, arid habitats 673

Faniidae, Australian, revised. Supplement No. 51 (19 August). Abstract 827
Farnesyl methyl ether, metamorphosis of *Blatella germanica* 233
Fat, reserves in rabbit, condition of population 631
Fleas
See Siphonaptera 185
Flies
See Diptera 75, 765, 779, 827
Frogs
See Anurans 15, 19, 243, 449
Fruit fly
See Dacus 59

Gait, quokka, speed of movement 423
Grasshoppers
See Morabini 499, 567
Growth
Rate, tadpoles of *Ranidella* morphs compared 243
Regulators, productivity of stored grain insects 201
Gymnodia, Australian species revised 347

Habitat
Arid, adaptations of chats 673
Endemic *Drosophila*, Victoria and Tasmania 249
Macropods, nitrogen requirements 407
Hibiscus, *Drosophila* species inhabiting 755
Humidity
Adaptive behaviour of *Drosophila* 285
Mound building of *Amitermes* 711
Hybrid zone, competition, *Pseudophryne* tadpoles 449
Hydraena, Australian, revision 147
Hydroprene, effect on productivity of stored grain insects 201
Hymenoptera
Ants of genus *Orectognathus* 581
Australian Ophioninae revised. Supplement No. 49 (15 July). Abstract 613

Immigration, catch of noctuid pest species 95
Immunoglobulins, wild populations of rabbits 71
Insects, stored grain, effects of growth regulators 201
Isoodon macrourus
Endoderm formation 207
Unusual blastocyst 225

Keratins, mammal, high-sulphur proteins, aid in taxonomy 121

Lactation
Cessation, recurrence of breeding, *Perameles* 641
Ovarian changes, *Notomys alexis* 401
Lepidoptera, noctuid pest species, factors affecting catch 95
Light, lunar, catch of noctuid pest species 95
Lizards
See Diplodactylus vittatus 43
See Phyllodactylus marmoratus 667
Locomotion, energy expenditure, quokka 423
Locust
See Chortoicetes terminifera 455
Lonchura fuscans, temperature regulation 193
Luciliini, wing morphometrics 765

Macropus eugenii, nitrogen requirements, *v. Thylogale thetis* 407
Macrosiphum rosae, causes of changes in numbers 269
Mastotermes darwiniensis, development of castes 25
Mating, *Culex pipiens* complex, mate recognition 491
Measurements
Mullets, sexual dimorphism 615
Rabbit skulls, variation among populations 721
Metabolic rate, thermoregulation, *Lonchura fuscans* 193
Metabolism, nitrogen requirements, macropods compared 407
Metamorphosis, *Blatella germanica*, effect of farnesyl methyl ether 233
Methoprene, effect on productivity of stored grain insects 201
Midges, feeding on sheep, eastern Australia 75
Morabini
Genera and species revised 499
Karyotypes and meiosis 567
Mortality
Drosophila spp., cold stress 693
Stored grain insects, effects of growth regulators 201
Mosquitoes, feeding on sheep, eastern Australia 75
Moths
See Lepidoptera 95
Mouse, brain, structure of cortical 'barrels' 1

Movements
Chats, avoidance of saline water 673
Plague locust, role of weather 455
Mugilidae, Australian, sexual dimorphism 615
Muridae
Ovary, lactating *Notomys alexis* 401
Muscidae
Australian species of *Gymnodia* redescribed 347
Feeding on sheep, eastern Australia 75
Muscle
Anurans, glycolytic enzymes, anaerobic energy production 15
Snake, glycolytic enzymes, land *v.* sea habit 9

Neurones, 'barrels' in mouse brain, structure 1
New Guinea, subfossil fruit bats 291
Nitrogen, requirements, pademelon and wallaby 407
Noctuidae, pest species, catch related to adult emergence and light, Queensland 95
Notomys
alexis, lactating, ovarian changes 401
mordax, skull redescribed 749
Numbers
Density, *Drosophila* spp., egg hatchability 699
Rose aphid, causes of change 269

Oestrus, after removal of young, *Perameles* 641
Ophioninae, Australian, revision. Supplement No. 49 (15 July). Abstract 613
Orectognathus, new species described 581
Orthoptera
Genera and species of Morabini 499
Karyotypes and meiosis of Morabini 567
Oryctolagus cuniculus
Blood immunoglobulins, wild populations 71
Fat reserves, condition of population 631
Morphometric distances, Australian populations 721
Ovary, lactating *Notomys alexis* 401
Oxygen
Anoxia, frog muscle, activity of species 15
Snake muscle, land *v.* sea habit 9
Consumption, locomotion, quokka 423
Tropical frogs, temperature and time of day 19

Pademelon
See Thylogale thetis 407
Panesthiinae, Australian, revision. Supplement No. 48 (8 July). Abstract 613
Papuapsylla, revision of genus. Supplement No. 45 (10 December 1976). Abstract 185
Paralepta, and *Carystea*, review 133
Perameles nasuta
Breeding after removal of young 641
Endoderm formation 207
Phyllodactylus marmoratus, new chromosome race 667
Phylogeny, Vittaticellidae, branching patterns 103
Polymorphism, and tadpole growth rate, *Ranidella* spp. 243
Population
Dynamics, aphids on rose 269
Field, *Dacus tryoni*, variation, sympatry with *D. neohumeralis* 59
Plague locust, increase and movements, role of weather 455
Rabbit, condition indicated by fat reserves 631
Morphometric distances between 721
Victorian *v.* Tasmanian birds, role of competition 429
Potorous
Species delimited, electrophoretic studies 733
tridactylus, thyroid function 419
Productivity, stored grain insects, effects of growth regulators 201
Proteins
Blood, electrophoresis, *Potorous* taxonomy 733
High-sulphur, mammal keratins, aid in taxonomy 121
Pseudophryne spp., tadpoles, competition in hybrid zone 449
Pteropodidae, subfossil, highland New Guinea 291

Quokka
See Setonix brachyurus 423

Rabbit
See Oryctolagus cuniculus 71, 631, 721
Ranidella, spp., polymorphism and tadpole growth rates 243
Receptors, sensory, epidermis of *Temnocephala novae-zealandiae* 187
Respiration
Muscle anoxia, frogs, activity 15
Oxygen consumption, tropical frogs, temperature 19
Snakes, land *v.* sea habit 9
Rhiniinae, Australian, revised 779

Scaptomyza, Australian, redescribed 337
Selection, callus variation in *Dacus tryoni* 59
Setonix brachyurus, locomotory energetics 423
Sex, dimorphism, Australian Mugilidae 615
Sheep, blood-sucking flies attacking 75
Simuliidae, feeding on sheep, eastern Australia 75
Siphonaptera, revision of *Papuapsylla*. Supplement No. 45 (10 December 1976). Abstract 185
Skull, measurements, rabbit populations, variation 721
Snakes
Elapidae, reproduction 647, 655
Land *v.* sea, glycolytic enzymes in muscle 9
Soldiers, development in *Mastotermes darwiniensis* 25
Spathula, monograph of genus. Supplement No. 47 (22 April). Abstract 613

Tasmania
Birds, *v.* Victoria, role of competition 429
Distribution of endemic *Drosophila* 249
Taxonomy, high-sulphur proteins of keratins an aid in 121
Temnocephala novae-zealandiae, epidermal sensory receptors 187
Temperature
Adaptive behaviour, *Drosophila* 285
Gradient, mounds of *Amitermes* 711
Oxygen consumption of tropical frogs 19
Regulation, *Lonchura fuscans* 193
Water balance, chats 673
Resistance, *Drosophila* spp. compared 693
Termites
See Amitermes 87, 711
See Mastotermes darwiniensis 25
Testis, cycle, elapid snakes 647
Thylogale thetis, nitrogen requirements, *v. Macropus eugenii* 407
Thyroid, function in potoroo 419
Turbellaria, monograph of genus *Spathula*. Supplement No. 47 (22 April). Abstract 613

Variation
Diplodactylus vittatus, five races demonstrated 43
Maintenance in *Dacus tryoni* 59
Morphometric, Australian rabbit populations 721
Ventilation, effects of growth regulators on stored grain insects 201

Victoria
Birds, *v.* Tasmania, role of competition 429
Distribution and habitat of endemic *Drosophila* 249
Vittaticellidae, branching patterns and phylogeny 103

Wallaby
See Macropus eugenii 407
Water, balance, chats in arid habitat 673
Weather, role in plague locust outbreak 455
Wing, morphometrics, taxonomy of Luciliini 765
Workers, development in *Mastotermes darwiniensis* 25
